

Logo

Primary Logo

To represent who we are and to increase recognizability, we created this Primary Logo that visually conveys learning, growth, empowerment, and people-centeredness. This Primary Logo is to be displayed the most often.

Primary Logo Clearspace

Clearspace is the minimum distance between the Primary Logo and other visual elements. The width of LetAllGirls' "e" defines the minimum clearspace around the Primary Logo. Keeping elements from being in the clearspace allows proper readability.

Wordmark

While our Primary Logo has the most use cases, the Wordmark may be used for horizontal formats. It should not be used alone i.e. without other branding elements.

LetAllGirls

Wordmark Clearspace

Clearspace is the minimum distance between the Wordmark and other visual elements. The width of LetAllGirls' "e" defines the minimum clearspace around the Wordmark. Keeping elements from being in the clearspace allows proper readability.

Brandmark

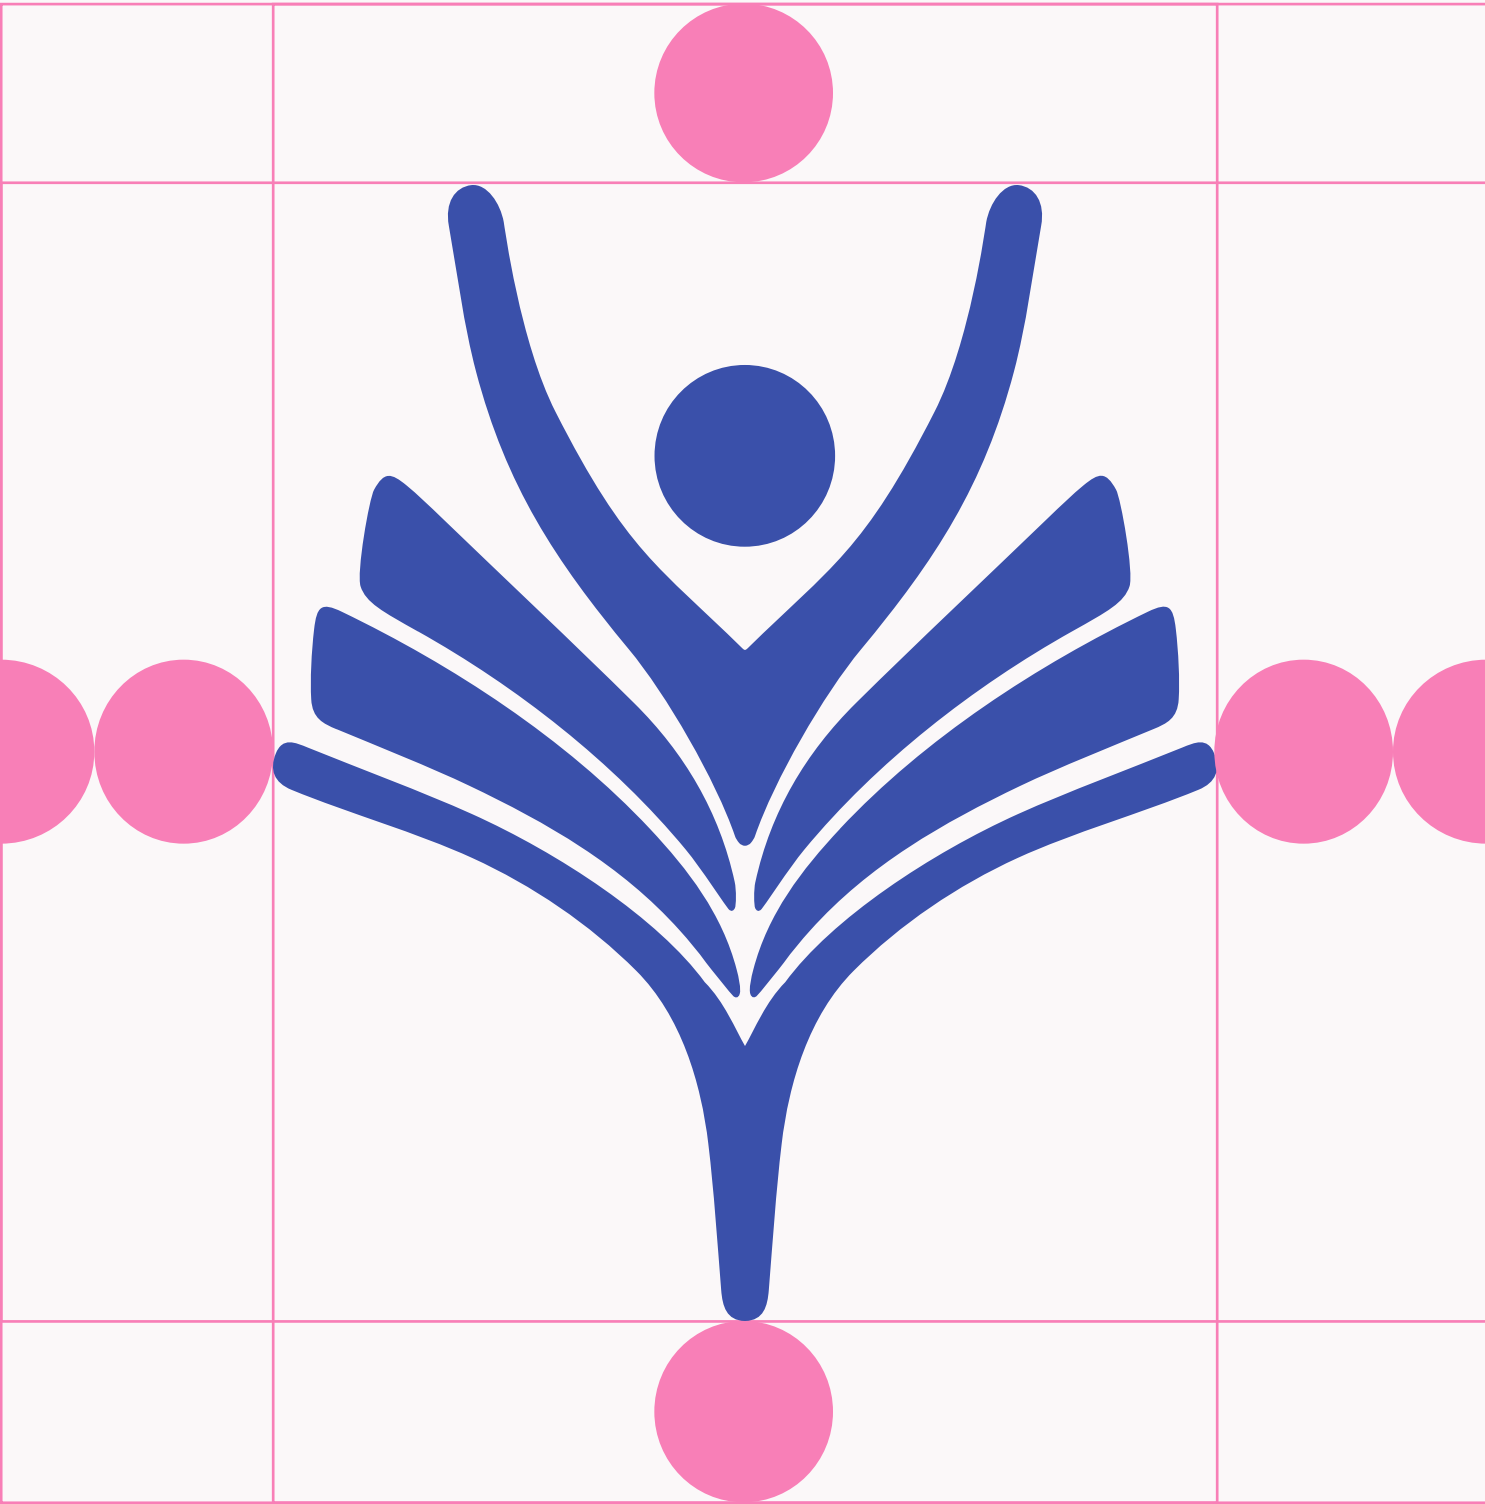

Our Brandmark is aligned with our brand values. The cheerful person symbolizes the people we support, notably students, and the book represents how we support them: through education and learning.

The Brandmark can be used standalone at small sizes. Generally, it should not be used if the full logo would be legible.

Brandmark Clearspace

Clearspace is the minimum distance between the Brandmark and other visual elements. The diameter of the solid circle defines the minimum clearspace above and below, and 1.5x the diameter is the minimum clearspace left and right of the Brandmark. Keeping elements from being in the clearspace allows proper readability.

Logo Color Usage

Our color palette allows for unique combinations adaptable to all use cases. To maintain sufficient contrast and consistency, color pairings are to be regulated.

We have a Primary Colorway and a Secondary Colorway. For simplicity, the Brandmark will be used in examples. These colorways apply to our Wordmark and Primary Logo.

All pairings have a contrast ratio greater than 4.5 : 1.

Primary Colorway

Our primary colorway is used most often on applications. Pairings are shown on the right:

Brave Horizon PRIMARY Cloud LIGHT

When being presented on any “blank” material, Brave horizon is to be used, NOT Night PRIMARY.

Cloud LIGHT Brave Horizon PRIMARY

It is preferred that the background not be Night PRIMARY. If a “dark mode” is required, Brave Horizon EXTRA may be used. In that case, the logo would appear in Cloud LIGHT and NOT any other accent color in our Secondary Color Palette.

Logo Color Usage

Our color palette allows for unique combinations adaptable to all use cases. To maintain sufficient contrast and consistency, color pairings are to be regulated.

We have a Primary Colorway and a Secondary Colorway. For simplicity, the Brandmark will be used in examples. These colorways apply to our Wordmark and Primary Logo.

All pairings have a contrast ratio greater than 4.5 : 1.

Secondary Colorway

Our secondary colorway is used less often on applications. Pairings are shown on the right:

On Gradients (DARK)

On darker gradients, **Cloud LIGHT** should be used to maintain the high contrast.

On Gradients (LIGHT)

On lighter gradients, **Night PRIMARY** should be used to maintain the high contrast.

On Imagery

It is preferred that we avoid placing the logo on imagery. Either **Cloud LIGHT** or **Night PRIMARY** should be used depending on contrast level.

Brave Horizon PRIMARY on LIGHT colors

On any LIGHT color, the logo should appear in Brave Horizon PRIMARY. The logo is NOT to appear on ACCENT colors.

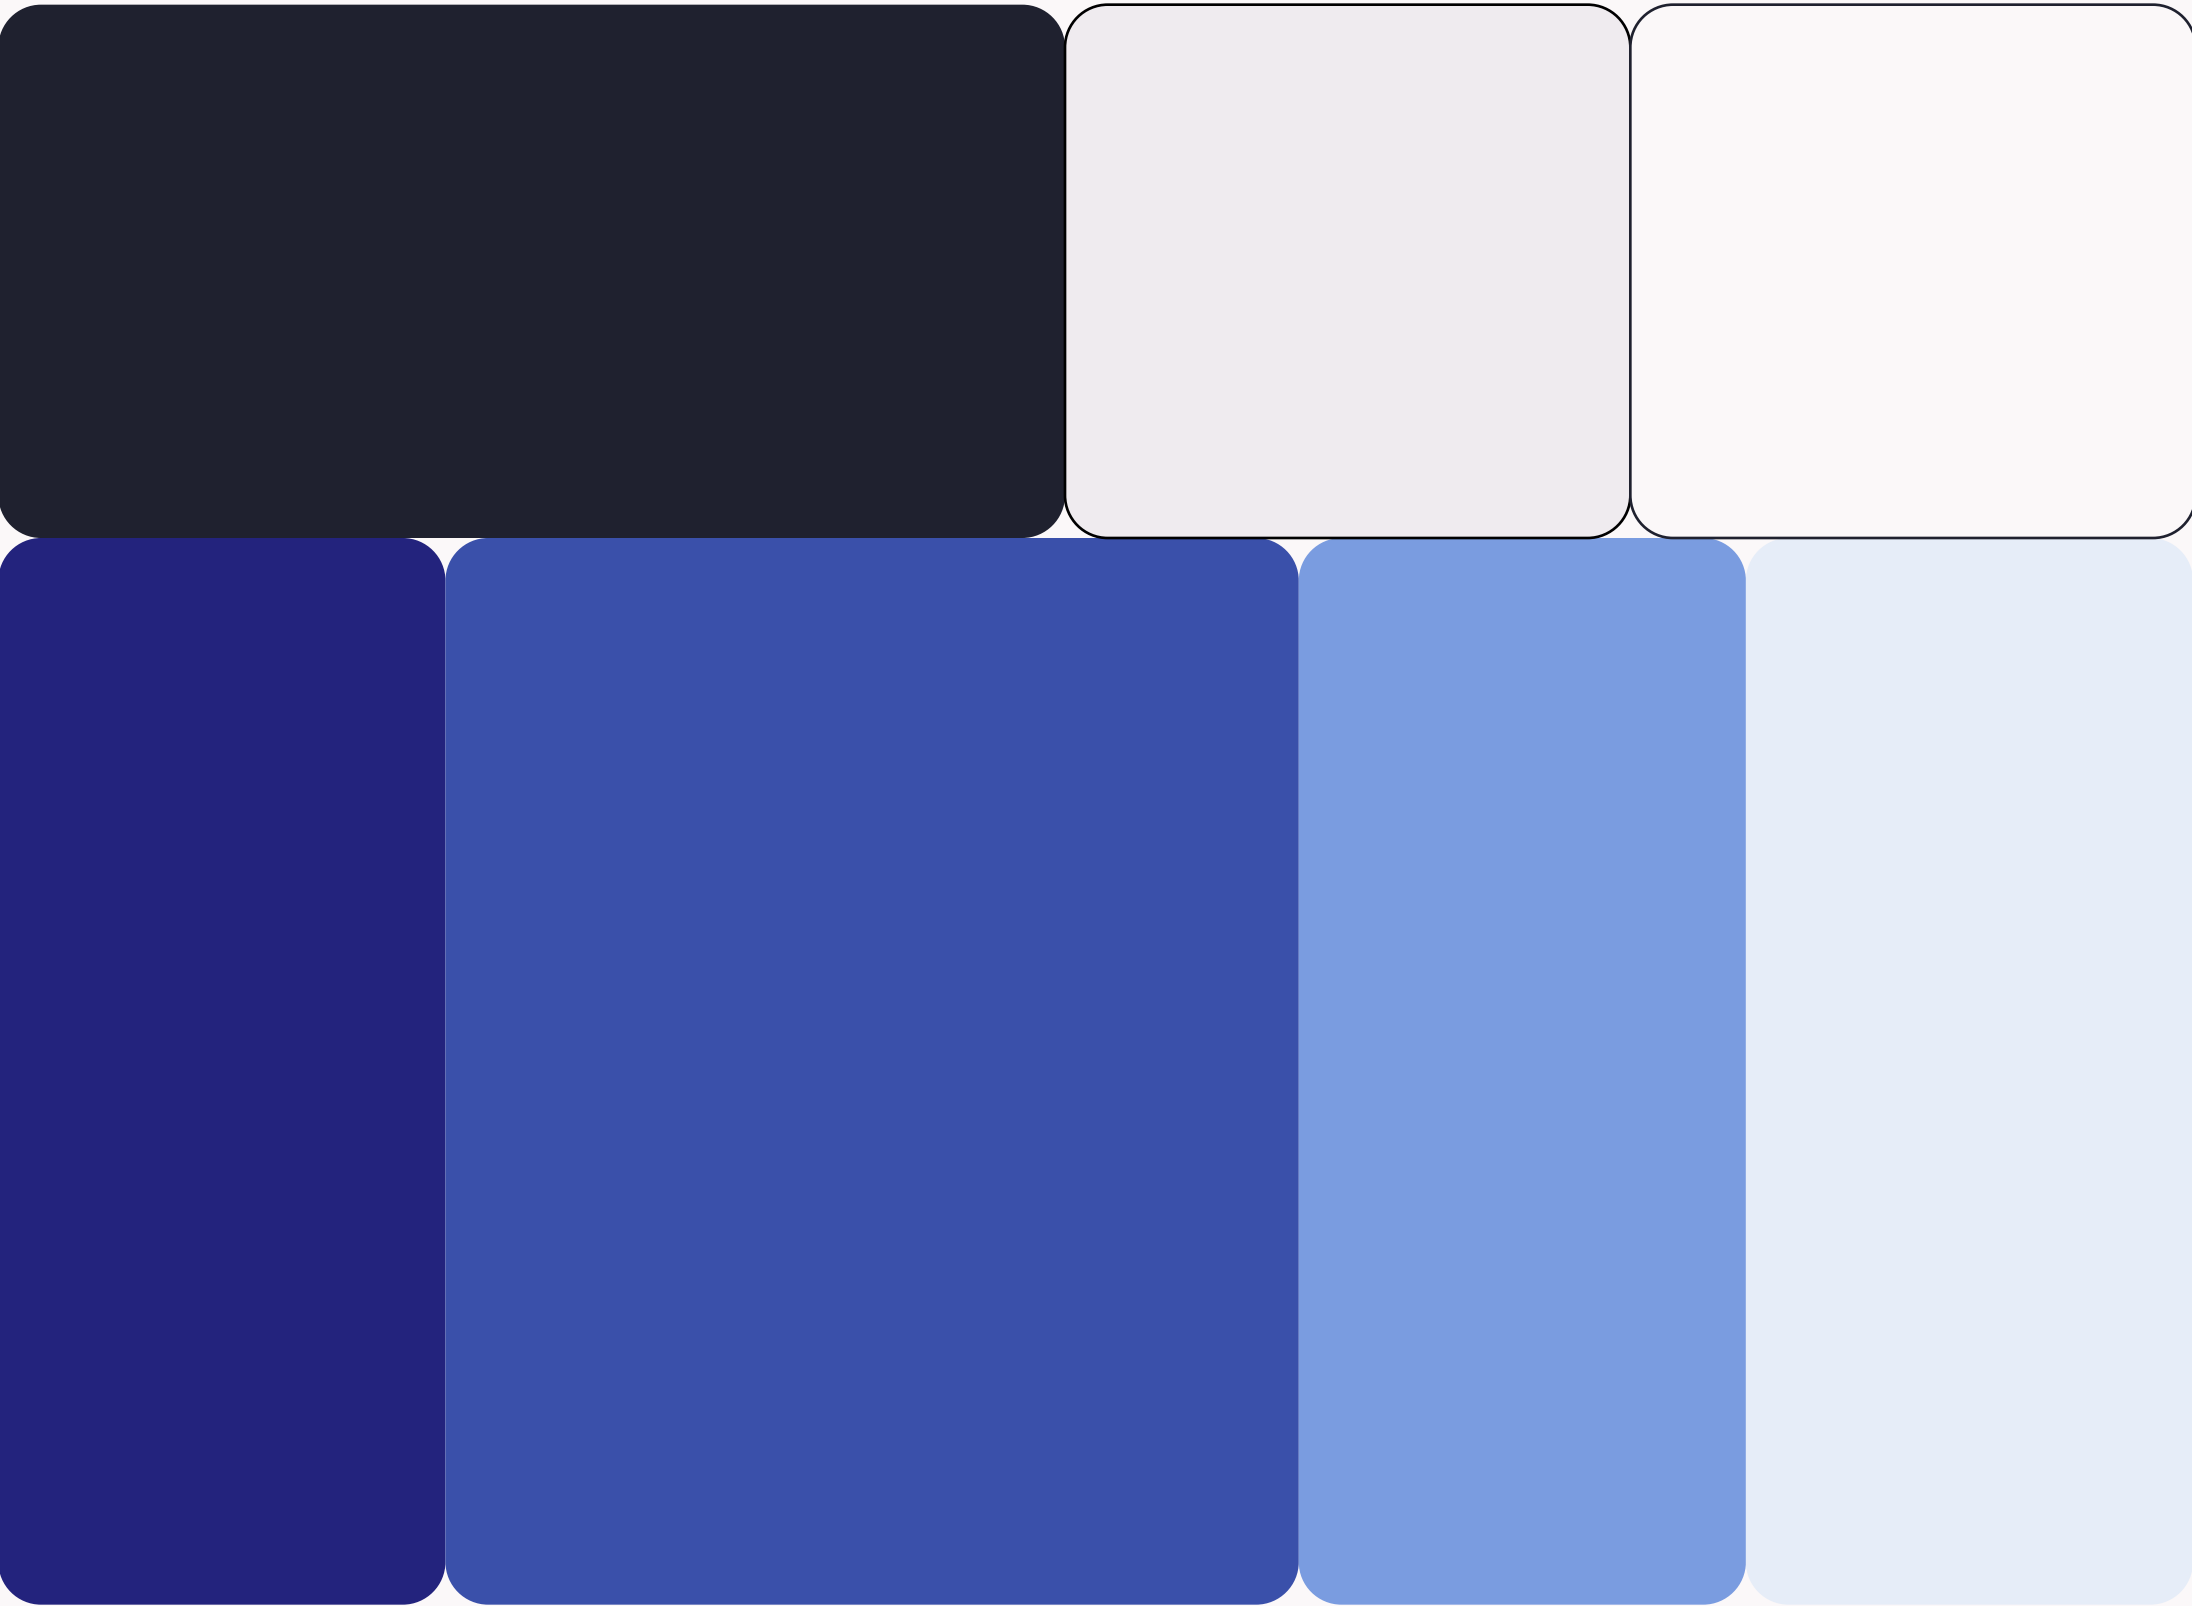

Color

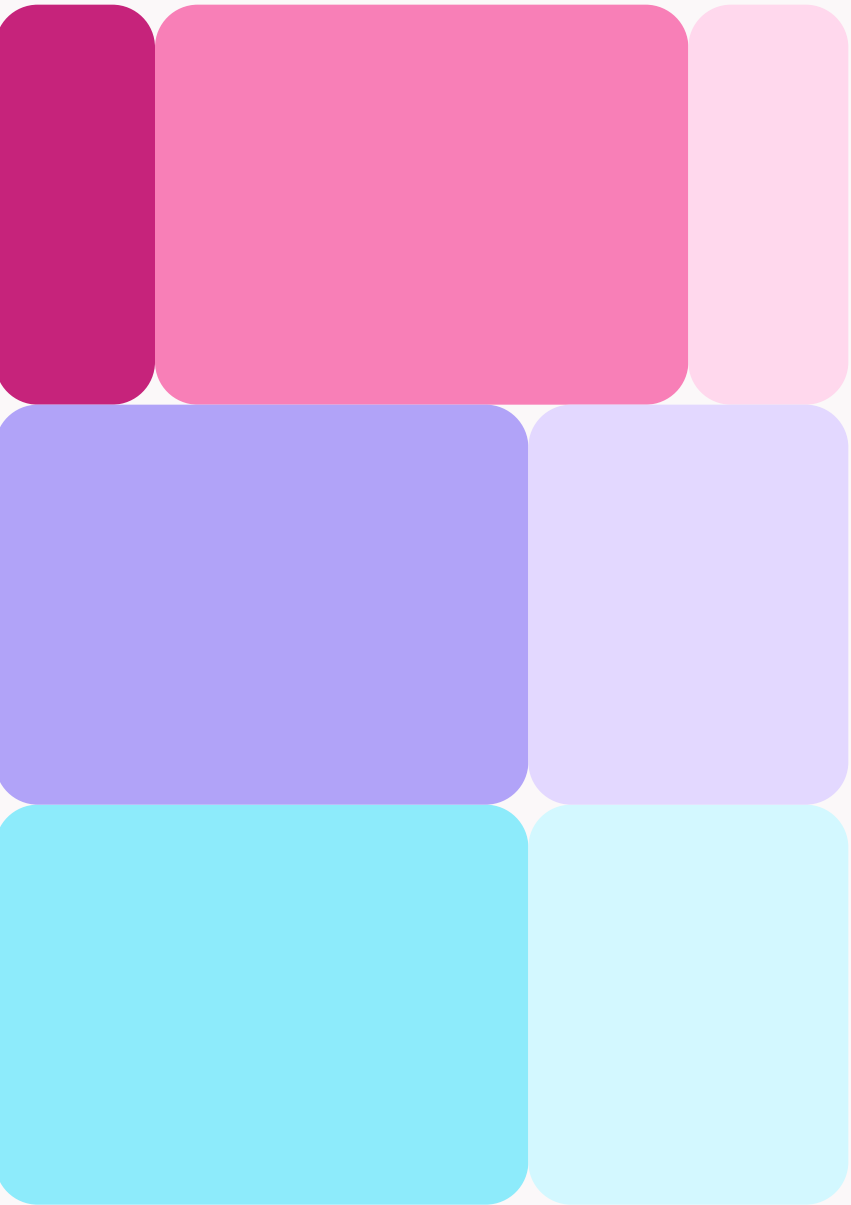

Color Overview

This is our full LetAllGirls color palette, weighted in order of importance.

Primary Palette

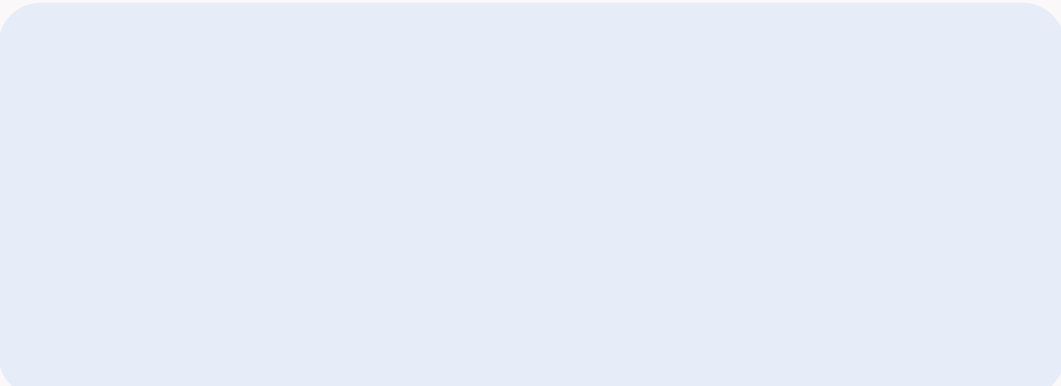

Secondary Palette

Primary Color Palette

This is our primary palette, inspired by our

This is our primary palette, inspired by our bold, resilient, and passionate nature. Our blue-to-indigo palette maintains reliability while displaying that we are education-focused. These colors are to appear most often in all brand applications.

Brave Horizon LIGHT

rgb(230, 233, 248)

Brave Horizon PRIMARY

rgb(58, 81, 170)
3A51AA

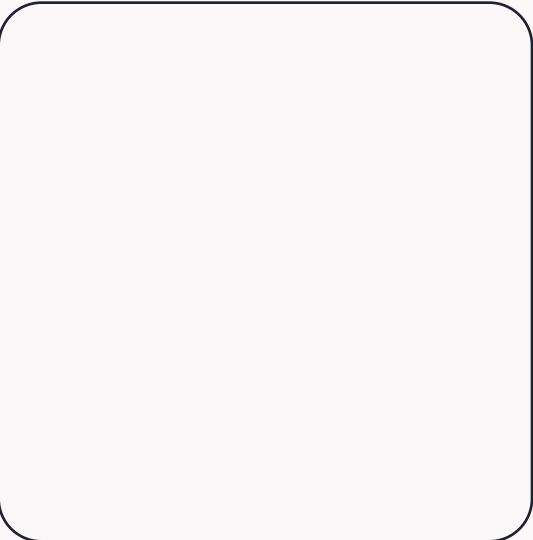

Brave Horizon PRIMARY passes WCAG AAA for larger text when on Gentle White .

Brave Horizon EXTRA

rgb(36, 36, 126)
24247E

Brave Horizon EXTRA passes WCAG AAA for all text when used as background.

Cloud LIGHT

rgb(251, 248, 250)
FBF8FA

Cloud LIGHT is the primary background color.

Cloud NEUTRAL

rgb(239, 236, 239)
EFECEF

Night

rgb(31, 34, 48)
1F2230

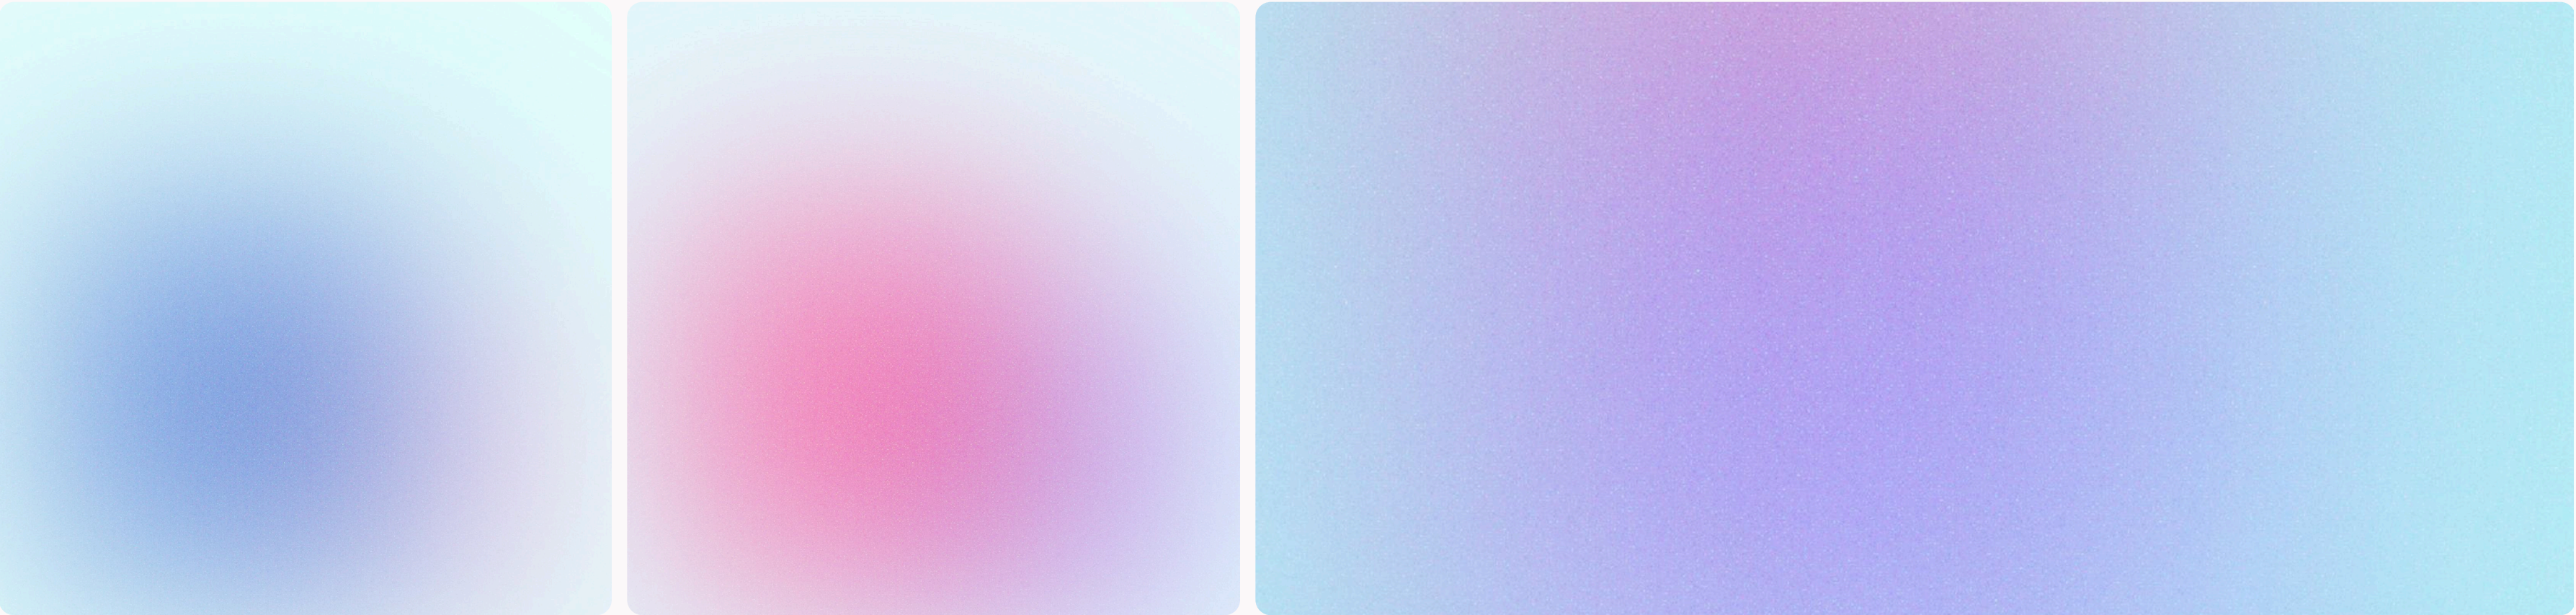

Night is the primary text color.

Secondary Color Palette

This is our secondary palette and it is used to enhance applications, especially in less serious applications, to increase visual interest.

When using on their own, it must be made clear that the material is of and from LetAllGirls. These colors are primarily used only in certain applications when combined with colors from our primary palette.

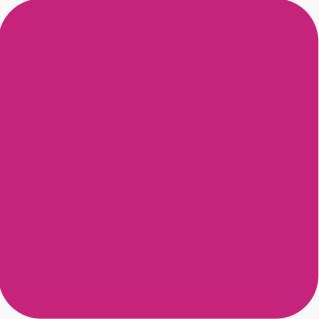

These colors may be primarily used for gradients to convey a bright, uplifting emotion.

Gradients

We use gradients to balance the boldness of our solid blues with a fun, uplifting flare. All colors may be used between Primary and secondary palettes, EXCEPT for Night PRIMARY, Cloud NEUTRAL, and Cloud LIGHT. Medium to high amount of noise with lower opacity is standard.

Type

Typography Overview

We use variable weight variations of “Raleway” to establish clear visual hierarchy in all cases and maintain a consistent brand impression. Our type styles allow for a wide range of flexibility in their application.

Apart from specific cases, the shown variable weights of each typeface and their respective uses, Heading/Subheading, Body Copy, and Labels/Captions, are standard.

Heading + Subheading

Raleway
Semi-Bold

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789!@#\$%^&*()[]?+

Body Copy

Raleway
Medium

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789!@#\$%^&*()[]?+

Labels + Captions

Raleway
Regular

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789!@#\$%^&*()[]?+

Line Height

To ensure readability and balance, line height must be regulated. Line height of headings and subheadings is 1.2*fontsize (1.2 unitless). Line height of Body Copy, Labels, and Captions is 1.4*fontsize (1.4 unitless).

Line height = 1.2 * Font size

Headings + Subheadings are set in **Raleway SemiBold** with line height of 1.2.

Line height = 1.2 * Font size

Body Copy is set in **Raleway Medium** with line height of 1.4.

Line height = 1.4 * Font size

Labels + Captions are set in **Raleway Regular** with line height of 1.4.

Type-Size Relationship

When creating layouts using all three typefaces, clear hierarchy can be established by following the major third (5 : 4) ratio.

Heading size is ≥1.25x Subheading size.
Subheading size is ≥1.25x Body Copy size.
